Hope Is Given Up.

Chicago, Oct. 29.—Hope that Tuesday night's fearful storm would be recorded without loss of life was blasted yesterday when the owners of the steamship L. R. Doty of Cleveland identified floating wreckage picked up by the tug Prodigy off Kenosha Thursday afternoon. They have grave fears that the Doty's crew of seventeen men, commanded by Capt. Christopher Smith, went down with the vessel and a \$40,000 cargo of corn, the property of Counselman & Co., Chicago.

Canal Case Decided.

Joliet, Ill., Oct. 29.—Judge Hillscher Friday gave his decision in the injunction suit between the Illinois and Michigan canal commissioners and the sanitary district of Chicago. CRUEL TREATMENT MADE WIFE INSANE

MRS. ANNA BIER, OF HARMONY, BROUGHT HERE.

She Left Home, She Says, Because Her Husband Mistreated Her—Will Be Taken to Mendota For Treatment—Under Sheriff Cochran Made Arrest This Morning.

Mrs. Anna Bier, of the town of Harmony, a raving maniac, has occupied a cell in the Rock county jail today. Cruel treatment on the part of her husband is alleged to have caused her to lose her mind.

A telegram from Chairman Godfrey, of the town of Lima, arrived in the city this morning notifying Sheriff Acheson that an insane woman had spent the night at the August Dickoff farm six miles north of Milton and that for her own safety as well as that of others she should be cared for at once. Under Sheriff Wallace Cochran left this morning and soon had the unfortunate woman in charge. She proved to be Mrs. Anna Bier, residing in the town of Harmony. She was brought to this city and placed in jail, where she was examined this afternoon and found insane. She will be taken to the state asylum at Mendota for treatment.

According to several neighbors of the Bier family it appears that the woman and her husband have had trouble of late, and that she has been cruelly treated. At the jail today Mrs. Bier said that her husband has treated her shamefully at times by beating and striking her and that he has always made her work hard. The police say that a portion of her tale is true. The unfortunate woman is German, and is about fifty years of age.

SOME VALUABLE WAR RELICS

American Spanish Trophies Now on Exhibition in This City.

Charles E. Jenkins, of this city, may well feel proud of his collection of Spanish American war relics that he recently received from battleship sailors in New York harbor. It is without doubt the best in this section of the state, and includes shells fired by the Iowa at the Viscaya. A portion of the Santiago San Juan cable that was cut by marines from the auxiliary cruiser St. Louis is also among the lot, as well as a genuine Spanish shell found by the American sailors in Morro castle. The collection is a valuable one, and is on exhibition in the dry goods window of Hoffmaster & Son.

WORK IN THE NAVY.

Chief Constructor Reports on the Work of Recent Months.

Washington, Oct. 29.—A large part of the burden of equipping the United States navy for the war with Spain fell upon the construction bureau of the navy, and in his annual report Commodore Hiebhorn, the chief constructor, furnishes many interesting details as to the extent of this work, involving the transformation of more than 100 merchant-craft into effective naval vessels at short notice.

Looking to the future, the chief constructor invites attention to the importance of properly equipping and maintaining the plants at the minor naval stations along the coast already established, and he submits estimates for the purpose, averaging about \$25,000 in each case. To keep the nucleus of the force of men at these stations, small work should be constantly under way and proper storehouses should be erected to keep sufficient quantity of material on hand.

Besides the long list of vessels purchased by the government for use as auxiliary cruisers, the report says that ten vessels were accepted by the government by builders during the last fiscal year. These were the Iowa, Helena, Nashville, Wilmington, Annapolis, Marietta, Newport, Vicksburg, Foote and Wheeling. Progress made on the vessels in course of construction has been very satisfactory. The work on the battleships has been held back to a great degree by the impossibility of procuring armor when it was needed.

ROB BELOIT DIVINE

GRIFFIN AND BEYERS ARRESTED IN LINE CITY.

Placed in Rock County Jail Charged With Stealing Clothing, a Prayer Book And a Bible—Given Hearing in Beloit This Afternoon—Coat Found in This City.

Darb Griffin and Ernest Beyer, of this city, were arrested in Beloit yesterday, charged with larceny, and today they were brought to this city and lodged in jail. They are charged with stealing an overcoat, prayer book and bible from a German minister in Beloit. The evidence against them is of a convincing character, and that they are the guilty parties there is but little doubt.

At the jail today Griffin admitted that he was guilty, but said he was drunk at the time, and did not realize what he was doing. Chief Hogan found the stolen coat in this city, and it will be held in evidence against the pair.

Beyers has but very little to say, and up to a late hour this afternoon refused to tell what he did with the property he took. Griffin says he only took the bible because it lay in plain sight, and that he might do some good with it by letting the members of the Whitelight club look through it during their spare moments. The prayer book he thought would do for a Christmas present.

According to the Beloit police Griffin and Beyers have been hanging around the Line City of late, having stolen a ride down on a freight train. While passing a German church and finding the door open they walked in and helped themselves in spite of a strong protest by the German preacher who caught them in the act.

Marshal George Appleby caused their arrest and this afternoon he took them back to the Line City, where they were given a hearing before Justice Booth. Both are well known to the police, and have been in jail before.

Virdeu Strikers Fuzzled.

Carlville, Ill., Oct. 29.—The miners of this city were wondering what Patton, Hamilton & Patton, attorneys, of Springfield, mean by withdrawing the injunction suits against Ed Cahill and thirty-three more of the union leaders. The injunctions were served to prevent them from interfering with the operation of the mines at Virdeu, and the withdrawal of the suits is asked by the complainants at their cost, which will amount to over \$100. It is believed here that this is the beginning of the end of the Virdeu strike, and that some solution will soon be had, probably before the grand jury meets, Nov. 9, to investigate the cause of the trouble.

UNCLE SAM HAS DECIDED TO KEEP THE WHOLE GROUP

Spain Was Unbecomingly Saucy And Has Been Taught a Lesson of Humility—She Might Have Saved a Part—Preparations For the Occupation of Cuba.

Paris, Oct. 29.—[Special].—Something of a sensation has been created in the Spanish American peace commission by the definite announcement of the extent of the American claims. The story goes that the United States has decided to claim the entire Philippine archipelago and the Spanish commissioners will be notified to this effect next Monday. The Spanish commissioners will be informed that the United States will assume the Philippine debt of \$40,000,000. They will also be notified the United States will assume control of Cuba temporarily, in trust for the people of that island; that Porto Rico becomes the absolute property of the United States free from Spanish debt, and that Guam is to be ceded to the United States as a naval station.

It is quite possible the terms would not have been so severe had the Spanish commissioners been less arrogant. They have been offensive in their demands, assuming the airs of conquerors rather than those of a conquered people.

CHURCH SERVICES FOR TOMORROW

MANY GO TO THE SANCTUARY
TO SEE FINE COLTHES.

Others Are in Attendance to Display
Them—Scheme of a Chicago Minister
to Secure a Large Attendance
—Announcements of the Local
Clergy.

A Chicago clergyman, who officiates in a fashionable church, has hit upon a novel plan for drawing a large congregation. He has made an arrangement with one of the newspapers of the city for the presence of a society reporter, who chronicles the presence in the pews of those who move in upper tondom, and describes the costumes they wear. The result has been to greatly increase the church attendance, and to cause the ladies to bestow unusual care upon their toilets. Of course it would not do to insinuate that any of the ladies of Janesville attend church for the purpose of being admired for the clothes they wear, yet it is a fact that those who admire taste in dress, can be gratified nowhere else so fully as in the sanctuary. There the ladies appear as they should, in the best raiment they can afford. It is not their fault if they sometimes attract more attention than the preacher. At any rate the well dressed women are conspicuous in the churches, and those who wish to see them can find no more favorable place than within the sanctuary walls.

OF LOCAL INTEREST

Some People We Know and
We Will Profit By
Hearing About Them.

This is a purely local event. It took place in Janesville. Not in Buffalo or New York. You are asked to investigate it. Asked to believe a citizens word. To confirm a citizens statement. Any article that is indorsed at home.

That obtains resident advocates. Is more worthy of confidence. Than a far off foreign article. Tested to be by unknown people.

Mrs. L. B. Canniff, of 107 Cornelia street, says: "I doctored from time to time for the last eight or ten years for kidney complaint. I felt fairly well as long as I took medicines, but if I left off I immediately became worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervousness, my finger nails turned purple and I never suffered so much in my life. The medicine I took seemed to act as a stimulant while I used it, and I finally recovered in a measure. During the last three years I suffered from attacks of headache, dizziness and a lame back. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the Janesville Co's drug store and I can say they are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally. Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take on substitute.

FRENCH GOWN OF WOOL BENGALINE FROM HARPER'S BAZAR

Wool bengaline, a material which falls in graceful folds, forms an attractive circular skirt, with no fullness about the hips and an especially pretty flare around the bottom, where it measures about four yards, and spreads out behind in fanlike pleats. A plain but becoming effect in trimming consists of doublefolded bands of the material, two or three in cluster, which outline an apron in front, and, reaching higher towards the back, produce a yoke effect behind, where it is fastened by several buttons. Below this opening the material is extended wider for the adjustment of the pleats. In order that the skirt may be adaptable to all figures, the pattern is given with directions for cutting a little fullness at the waist line in the back.

The blouse of chenille-dotted silk has an adjustable chemisette that forms a vest in front, thus permitting many pretty touches of color. The model is

tucked and finished with a high collar, ornamented with a cravat, tied in a square bow at the side. Over the shoulders is a deep collar bordered similarly to the opening of the fronts, that have clusters of ornamental buttons, which, large and small, are a distinctive feature of simple as well as elegant gowns. The corsage, back and front, may be snugly fitted, or made with a slight fullness of the waist line, the directions for each mode being furnished in the pattern. The sleeve, which is the latest model for winter skirt-waists, has an easy fullness at the top, and is fitted at the wrist to a circular cuff. The proper cut of this gown, taken from Harper's Bazar, can be obtained only by the use of Harper's Bazar cut-paper patterns.

Quantity of material—for skirt, 3 1/2 yards 48 inches wide; for blouse, 2 yards 48 inches wide, or 4 1/2 yards of silk.

IN MEMORY OF OLE PETERSON

[DIED JANESVILLE, JULY 22, 1898.]

Just as the harvest was over,
And the golden reel were in bloom,
Came voices hushed and anxious
From the stillness of a room.

Where lay our father waiting
For the summons all must hear,
And we listened for the coming
Of the angel then so near.

The breath was short and panting,
As we smoothed the gray streaked hair
On the temple of our father
Who lay so patient there.

And we listened to the beating
Of the heart so tired and slow,
But the time is short and fleeting,
And the last one soon must go.

Oh, it seems we could not spare him,
Could not have him taken away;
But our Father thought it better
Not to have him longer stay.

Death came on with hurried footsteps,
But the soul the victory won;
And our father he was taken,
For his work on earth was done.

We gave thy pall and shrouded form
Back to its mother earth,
But oh! the cruel grave has left
Within our hearts a dearth.

TO PLACE A BAN ON PRISON LABOR

LEGISLATIVE COMMITTEE INVESTIGATING THE SUBJECT

Will Listen to the Complaints of the
Trades Unions—Promise to Make
a Thorough Inquiry and Make Such
Recommendations as May be Deemed
Proper.

At the last session of the legislature a law was enacted, in compliance with Gov. Scofield's recommendation, for an investigation into the result of the systems of prison labor adopted in other states, providing for a non-salaried commission to inquire into and report concerning prison labor. This commission, composed of David C. Green, B. A. Buffington, and J. L. Sturtevant, is instructed by the law to investigate as to the conditions under which state and other convicts in this and other states are being employed, and to inquire into the matter of supplies usually purchased for the institutions which are conducted wholly or in part at the expense of the state; also the principal items of expense in conducting the Wisconsin prisons, and it is made the duty of the officers and managers of such institutions within the state, and also of the state board of control, to render all reasonable facilities and information to such commissioners.

The commissioners are to report to the next session of the legislature the substance of their investigation and inquiries, together with such recommendations and plans as they may deem proper to make.

In order to make the proper report, with such recommendations as may be pertinent, the commissioners desire to hear from the labor organizations and manufacturers of the state, and from others interested in the subject; and, with this end in view, it will hold a session at the Pfister Hotel, Milwaukee, from Nov. 14 to Nov. 19, both days inclusive, beginning at 9:30 a. m. each day.

Dreyfus Will Be Released.

Paris, Oct. 29.—It is a foregone conclusion, even among the anti-Dreyfus artists, that the decision of the court of cassation will be in favor of the condemned man, but it is still uncertain what form the judgment will take. It is stated that President Faure is conveyed to the judges an intimation of his hope that they would proceed to a conclusion of the Dreyfus case as rapidly as might be consistent with their duty in order to relieve the unhappy tension of the public mind.

Gold Excitement in Ohio.

Cleveland, Ohio, Oct. 29.—The excitement over the discovery of gold at Malvern is increasing, until the people of that part of the state are practically mad. Malvern is in the interior, about twenty miles from any railroad. Fred Wartmon, on whose farm the gold was first discovered, has decided to spend \$4,000 for machinery to work his mine. The gold assays all the way from \$25 to \$400 to the ton of quartz.

Shoshones Become Quiet.

Lives Lost in the War.

SPAIN PLAYING FOR EFFECT.

Hints at Breaking Off Peace Negotiations.

MOVE TO SAVE THE DYNASTY.

Officials at Washington Refuse to Believe the Report—Attitude of Spanish Commissioners Has Been Made Very Plain—Admit Bankruptcy.

Madrid, Oct. 29.—Since the American peace commissioners disregard the propositions submitted on behalf of Spain by Senor Montero Rios, president of the Spanish commission, the Spanish commissioners will retire from Paris to Madrid, protesting in legal form.

The Sagasta government will then immediately resign. The premier has decided to convene the cortes immediately upon the return of the Spanish peace commissioners to Madrid, and then resign.

Senor Silvela, the conservative leader, will probably succeed him, and his ministry will be supported by Gen. Martinez Campos, although the queen regent prefers a cabinet under Gen. Polavieja.

Spain's Attitude Is Plain.

Paris, Oct. 29.—It is easy to explain the attitude of Spain in the peace negotiations. The plea made by the Spanish commissioners Wednesday, that the United States take cognizance of her desperate financial straits, was more than a confession of bankruptcy. It meant that Spain was willing to concede any territorial demands the United States might make, provided something was done to avert her financial ruin and thus render possible the salvation of the present dynasty.

It is almost a foregone conclusion that, if Spain is compelled to repudiate her obligations, nothing will avail to prevent a successful revolution. The Spanish government does not care in this desperate situation what form its financial relief will take. Therefore, when it found that the United States was unyielding in regard to the Cuban debt, it abandoned that phase of the subject in order to press for pecuniary compensation in connection with the Philippines, where, it is well understood, the Americans will make larger demands than were originally contemplated.

Spain is prepared to grant all that America desires in the Philippines if she receives a substantial sum in cash for the concession. Otherwise, the Spanish commissioners will probably withdraw from the agreement anent Cuba and Porto Rico and break off the negotiations. This may seem to be a suicidal policy, but it is argued in behalf of Spain that she would in such a case be compelled to choose between the manner of her destruction, and she would prefer to perish at the hands of foreign instead of domestic foes.

The situation has not been officially discussed in these plain terms, but in disclosing the details of Spain's financial condition to the Americans the Spaniards made clear how desperate is the dilemma of their government.

Final instructions are expected from Washington before Monday, and the American attitude will then be declared.

Doubted in Washington.

Washington, Oct. 29.—Official advice from the American peace commissioners do not agree with the dispatch from Madrid predicting that the Spanish peace commissioners will retire from Paris protesting in legal form, and that the Sagasta ministry will immediately resign. The story is regarded as improbable, in view of the official report from Judge Day, saying that the Spanish commissioners have practically agreed to abandon their contention regarding the Cuban debt, and abide by the protocol as it applied.

A School Girl's Nerves.

This record is of especial value to parents. It's a message from a loving mother dedicated to the mothers of growing girls. A truthful narrative of the utmost interest and import.

It is important that the nerves are carefully guarded. Mothers who have young daughters of school age should watch their health more carefully than their studies.

The proper development of their bodies is of first importance.

After the confinement of the school room, plenty of out-door exercise should be taken. It is better that children never learn their a, b, c's, than that by over-study they lose their health.

All this is self-evident. Everyone admits it—everyone knows it, but everyone does not know how to build the health up when once broken down, even the best physicians failing at times.

The following method of Mrs. Stephen Barnes, whose post office address is Burney, Ind., if rightly applied, may save your daughter.

When her daughter Lucy was at that critical girlhood age of twelve years she grew weak and nervous.

"Previously she had been a bright, healthy young girl," says Mrs. Barnes. "She was diligent and progressive in her studies."

"It became necessary, however, for her to leave school."

"She was overtaxed mentally and physically."

"Her nerves were at such a tension that the least noise irritated her."

"She had continual twitching in the arms and lower limbs and symptoms of St. Vitus' dance."

"Her blood was out of order she was thin and pale, almost lifeless. In three

months she lost twenty-three pounds. "We did everything possible for her, and she had the best of medical treatment. "Several skilled physicians attended her, but no benefit was apparent."

"A family friend visiting us, told how her daughter had been similarly affected, but cured by Dr. Williams' Pink Pills for Pale People."

"She urged us to try the pills, and we finally consented."

"We have always rejoiced that we did."

"The pills helped Lucy at once, and after taking eight boxes she was entirely cured."

"She is now in perfect health, strong, weighs ten pounds more than ever before, and her cheeks are full of color."

"Two years of schooling were missed on account of ill health, but now she can gratify her ambition to study and become an educated woman."

The reason that Dr. Williams' Pink Pills for Pale People were helpful in the above case, is that they are composed of vegetable remedies which act directly on the impure blood, the foundation of disease.

As the blood rushes through all parts of the body, the conveyor of good or bad health, it is necessary that it should be pure, rich and red.

Dr. Williams' Pink Pills build up the blood by supplying its life giving elements which nourishes the various organs, stimulating them to activity in the performance of their functions and thus drives disease from the system.

The pills are in universal demand and sold by all druggists.

Still Claim the Ladrone.

Madrid, Oct. 29.—A dispatch to the Imparcial from Manila says that letters received there from the Ladrone, assert that after the American cruiser Charleston had taken possession of the archipelago and hoisted the American ensign she departed without leaving a garrison. After she had gone the Spaniards lowered the stars and stripes and hoisted the Spanish flag, declaring that the islands reverted to Spain.

A TIMELY RESCUE.

When all Else has Failed, and Hope Even is Gone, Dr. Greene's Nervura Saves Lives.

That Grand Medicine Which Restores Health and Gives Happiness Should be Taken at Once.

Life is but one vast expanse of turbulent waters, on whose waves man and kind are buffeted about. Like unto a ship hewed from the forest of the human body—sound and buoyant it breathes the storms of city and rides out the gale; neglected it succumbs to time's and soon sinks beneath the wave.

To save a life is a noble deed, but to neglect opportunities to save lives endangered by disease is a crime. Men and women to-day should be well and strong, freer from nervous troubles and diseases, owing to the opportunities which are now offered to become cured permanently and speedily by that famous remedy Dr. Greene's Nervura blood and nerve remedy, which is doing more at the present time for suffering humanity than any medicine in the world.

Brain exhaustion is a serious thing. Nervousness, irritability, insomnia and worry, are sure symptoms. Dr. Greene's Nervura should be taken by every man or woman troubled with nervousness and general debility, despondency, sleeplessness and melancholia. There is hope for you, no matter what you have done, to free yourself from these troubles which drive men and women to their graves.

Hon. Edwin C. White, Judge of Probate Court, Hyde Park, Vt., says: "I have used Dr. Greene's Nervura blood and nerve remedy in my family, and, am to say, with good results. My wife had been troubled with indigestion, which produced nervousness which might have been serious and at times troubled her greatly. We had tried many things for her relief, but without success. I saw the wonderful cures claimed for Dr. Greene's Nervura and resolved to give it a trial, and it gives me pleasure to say I am glad I did."

STAND BY THE PRESIDENT

William McKinley, President and Commander-in-Chief of the Army and Navy of the United States, represents today honest money and the credit, prosperity and progress of the country as much and more than he did in the memorable campaign of 1896.

Stand by the president in every state in the Union! Vote for men who will vote to sustain him! Vote for republican candidates for congress, and for republican members of legislatures that will elect United States senators! Vote for every candidate identified with the president's party!—N. Y. Sun.

TO VOTE A SACRED DUTY

"I admire President McKinley's statesmanship," said a prominent republican farmer to a Gazette man. "He has shown that he is a man among men. I should feel that I had neglected to perform a sacred duty if I failed to go to the polls on Nov. 8 and vote for President McKinley's principles. A vote for the republican ticket this fall is as clearly a vote for President McKinley, as it was in 1896. The man who believes in honest money and protection for American industries cannot but express the fact with his ballot this fall. The republican party has made a glorious record since William McKinley took hold of the reins and I think every man who professes to be a republican owed it to himself, his country, and his party to go and vote the straight ticket this fall. President McKinley has listened to the voice of the people in settling all the great questions growing out of the war. Now the people have a chance to raise their voice—with their ballots—and say 'well done, good and faithful servant.' Nothing but death will prevent my voting this fall, and it will be the proudest ballot I ever cast in my life!"

Thousands of people will say "Amen" to the patriotic utterance of this sturdy tiller of the soil. It has the ring of truth, and the force of clear logic. Never was the issue of republicanism versus other political isms more clearly defined. The "grand old party" has brought prosperity to the American people. It has maintained the credit and standing of the United States among the nations of the earth. It has furnished "an honest dollar, and a chance to earn it by honest toil" as President McKinley put it. A republican administration has managed a foreign war that was marked with victories that astonished the world. The party has been

weighed in an extremely exacting balance, and found to be not wanting. It has made glorious pages in history—pages that the Bryanites cannot blot despite their efforts to malign and mislead. No political party ever brought such knotty problems to so glorious a solution.

The democrats may deny the truth of these statements; yet down in their hearts they know that they are assailing that which is not assailable.

Mr. Reader, do you not love the principles of your party? Do you not admire President McKinley's sagacity and statesmanship? Was there ever a time in your life when you could feel more proud of the republican party? Can you think of a day when you could cast a ballot for republicanism with more satisfaction? Do you not feel it—as does the farmer above quoted—a solemn and sacred duty to go and vote this fall? Do not think "my one vote will make no difference." It will. President McKinley will be listening for the voice of Wisconsin on November 8, and the grand old state should send her greetings to the wise and patriotic president in thunder tones!

The past year has been a glorious one for republicans. There never was a time in the annals of history when the American people could with greater enthusiasm, repeat the historic words of Daniel Webster, when, in that burning speech delivered on August 2, 1826, he thundered forth to a breathless audience, the sentence:

"Sink or swim, live or die, survive or perish I give my hand and heart to the vote!"

Many candidates on a silver platform declare that, personally, they are "all right on the money question." But electors who believe in a sound currency should bear in mind that the man elected upon the silver platform will be compelled to vote for his party caucus at Washington, and a vote for him is a vote directly against sound money. Personality does not count. A man who runs for office on a silver platform cannot be anything but a "silver man."

Madison Journal—The article in The State Journal yesterday showing that Gov. Scofield was not only in favor of taxing the express companies, but actually signed the bill for that purpose, and then erased his signature when told by the law officer of the state that the bill was not legally passed, ought to silence all decent men who have been circulating the slander that he was opposed to the bill.

A vote for William G. Wheeler for the assembly is a vote for President McKinley. Mr. Wheeler will vote for an honest money republican for United States senator while his opponent would vote for a free silver democrat. The republican senator will support the president while the democratic senator would fight him. Vote for Mr. Wheeler and President McKinley.

W. D. Bynum's address at the Myers Grand was a masterly argument. Mr. Bynum is a democrat, but cannot stomach Bryanism. He believes in the gold standard, and says the money issue is the only issue of importance in the Wisconsin campaign.

If the democrats will look over the republican platform, they will see that the anti-pass plank is as strong as it can be made. And furthermore, the republicans declared against passes before the democrats had their convention.

The democratic county candidates are desperate. Now that the fine work of the Janesville democratic ring has been unmasked, the thinking democrats are angry, and hundreds will bolt.

The St. Louis Globe-Democrat thinks that the election of a democratic congress would give Madrid the most agreeable sensation it has had since the declaration of war last April.

Vote the straight republican ticket, and score a center shot in support of President McKinley.

MONAHAN TALKS
AT SISTERS' FAIR

HAS A FEW WORDS TO SAY TO INTELLIGENT VOTERS.

Praises the Policy of the National Government Which Has Brought Prosperity to the People—Gov. Scofield Has Given Wisconsin a Clean Administration.

James G. Monahan, of Darlington, addressed those in attendance at the Sisters' fair last evening upon the political issues of the time, as viewed from the republican standpoint. He was given a respectful hearing, and his remarks were frequently applauded by his listeners, although the majority of those present were of the opposite political faith. He took up seriatim the charges made by democrats against the state administration, and showed how baseless they were. His remarks, which were brief, were interspersed with good stories illustrative of the points he made, and caused a good impression.

Mr. Monahan spoke briefly but eloquently of national issues. He showed how the country had entered upon an era of prosperity with the restoration of the republican party to power; how industry had been quickened, stability of values assured and the people of the whole country made prosperous. He contrasted present conditions with those that existed during the last Cleveland administration, and gave credit for the gratifying change to the republican party and the legislation it had enacted.

Turning to state issues Mr. Monahan paid a high compliment to the integrity and ability of Gov. Scofield. He had been faithful to every trust reposed in him by the people. His administration of state affairs had been capable, and his care of the soldiers who went out to fight the country's battles had been marked by the utmost consideration. The speaker administered a stinging rebuke to those who were more anxious to criticize than commend, and closed with an exhortation to all present to work unceasingly for the success of the state and congressional tickets nominated by the republican party.

HAVE CONDUCTED A CLEAN CAMPAIGN

PRESENT COTEST HAS BEEN DEVOID OF SCANDALS.

Both Parties Have Abstained From Making Use of Slander—Reasoning, Not Invective, Has Been the Weapon of Offense—Will Beat Good Fruit.

The Milwaukee correspondent of the Chicago Times-Herald, in speaking of the campaign in this state, says:

From now on the efforts of the state central committee, and through it the county and town committees will be devoted to getting out the vote on election day. That is recognized all along the line as the prime factor in the result. Democrats as well as republicans feel this, and both sides will devote much more time to this important factor than to anything else.

One thing that gives Chairman Treat and his colleagues much pleasure is the clean, straightforward and openhand campaign which the party has conducted. As Mr. Treat said in speaking of it, the republicans have depended on open, above board work for their results. They had nothing to conceal, and so far as he was concerned he was willing that anyone could see just what was being done. They had depended upon a clear exposition of the issues of the day, devoid of all personalities and it gave the committee a great deal of pleasure to see that this fair course was commended by the voters, as was shown by the continually increasing interest in the campaign.

If the republicans win it will be because they have convinced the people that the issues of the campaign mean something more than the loaves and fishes contained in the spoils of public office. It is a campaign that seems to have appealed to the fair-minded of all classes, and is likely to bear good fruit next month.

Our Cigar Department

Is the most complete in the city.
Our box trade is steadily growing.

We can give you a very good domestic Cigar, 25 in a box—Prize Medal and Excelsior—at 50c; nothing like them in the city for the money. We have a cigar called the Mascot, 12 in a box, for 50c. En Ruta, a 5c straight cigar, the finest article that fine stock and good workmanship can produce for the money; this cigar cost \$40.00 per M at the factory.

The well known Cremo, 5c cigars, are the best 5c—6 for 25c cigars we ever put over our counter. You all know what the Fan Tan, Bill Baxter and Red Cross, 5c cigars are; it is needless to exalt their merits, we always have them in our case. A great many smokers are looking for a mild, fragrant, good 10c cigar, 3 for 25c or \$3.50 per box; we think we have found this cigar in the "Standard," made by Sprague, Warner & Co.; are already having a splendid box trade on it. A few particular smokers are looking for a pure Havana cigar that is not so heavy as to raise your hat at each smoking. We were lucky enough to secure some strictly all Havana cigars (and you know they are scarce these days) called the Diana Petit Invincibles. Don't get an idea because we call your attention to these cigars that they are cheap because they are not. They retail at 15c; 2 for 25c. The factory price on these goods is \$110.00 per M.
